

What do older adults want most for the holidays?

Dear Friends,

You can help older adults keep their freedom and quality of life this year by making a gift to Ivins Outreach Center to help our elderly neighbors Stay Put. AARP research shows most older adults want to stay in their homes as they age, but not everybody has the resources to make that possible.

By this Giving Tuesday (December 3rd), the Ivins Outreach Center Board is hoping to raise \$3,500 to give ten local older adults in need access to the Staying Put Program services they need to remain in their homes for a full year. **A generous donor will match donations dollar for dollar up to \$2,000** to help us serve at least ten more older adults who would not otherwise be able to afford services.

A year of Staying Put means a year of transportation to doctor's appointments, minor home repairs, social outings, and visits by our volunteers. It means independence for older adults and peace of mind for their family members who reside elsewhere. [Learn more here.](#)

While you are enjoying the warmth and friendship of the Thanksgiving holiday, give someone else a year of services to be thankful for each and every day. Make a gift of \$350 for a full membership, \$175 for half a membership, or any amount and your gift will be matched – up to \$2,000 total.

Thank you for helping your neighbors to Stay Put.

Gratefully,

Darletta Berry-Johnson
